Recovery + Resilience

OUR CORE APPROACH AND STRATEGIES FOR RECOVERY + RESILIENCE

Approach

RECOVERY + RESILIENCE

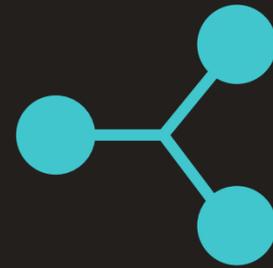

As we move beyond responding to the pandemic, the following strategies will lead us to thrive in a new normal.

This is meant to be a living document that will evolve and change as needed as the effects of the pandemic shift and more come to light. It's important to realize that recovery won't be static; resiliency won't happen on a specific date; it will be over a more extended period with adaptive and real-time planning.

Guiding Principles

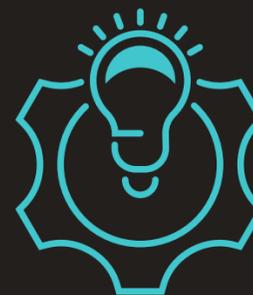

FOLLOW THE ADVICE OF OUR HEALTHCARE EXPERTS

PLAN IN ALIGNMENT WITH THE PROVINCIAL AND FEDERAL GOVERNMENT

PURSUE ONGOING ENGAGEMENT AND COMMUNICATION WITH STAKEHOLDERS

ACT SWIFTLY, WITH A FORWARD-THINKING AND INNOVATIVE MINDSET

Strategies + Action

SUPPORT

businesses planning to reopen or resuming full operations by partnering and supporting the Public Health Unit on information and resources promotion.

ESTABLISH

Local Investor & Referral Alliance to invest in existing businesses and/or to start new enterprises.

COMMUNICATE

COVID-19 assistance programs, services, and other resources to businesses through the website and other channels.

DISTRIBUTE

an impact survey and follow-up on immediate needs related to reopening businesses.

ONGOING

engagement, communication, and information sharing with businesses and stakeholders.

HOST

meetings for continued dialogue on restarting and building resilience with Service Provider and Regional EcDev Alliances.

DEVELOP

Local PPE listing on where to source Personal Protective Equipment to assist with reopening a business.

PARTNER

with Ontario Labor Market Partnership on HR Employer Roundtables with Healthcare, Transportation, and Manufacturing sectors.

RE-PURPOSE

Workforce Development Roundtable to be Virtual Recovery and Resilience Roundtables with retail, restaurants, and tourism sectors.
